

Mac's Monthly Advice!

Hey Everyone! Mac here with 4 red, white, and blue fun facts for the Fourth of July holiday!

How Many Dogs??

Americans eat around 150 million hot dogs while celebrating the 4th each year. That is over 800 hot dogs eaten per second!

Sign your Charles Thompson On The Dotted Line...

would be something you may have heard before if he would have signed his name larger than one Mr. John Hancock. The president of Congress, John Hancock and its secretary Charles Thompson were the first two signers of the Declaration of Independence and the only two to actually sign it on July 4, 1776.

Ben Franklin's Laptop was used...

wait WHAT?!? Although the first Apple Mac Pro was still a couple of hundred years away, the original Declaration of Independence was written on a "laptop" style desk that was used by Benjamin Franklin.

Late To The Party...

You'd think that national independence would be something worth celebrating annually, Independence Day was not made a federal holiday until 1870, almost a century later!
Talk about being fashionably late.

*Have a fun and safe
4th of July!*
