

MAC'S MONTHLY ADVICE!

Happy Holidays! The December season is my favorite time of year. I'm so excited to share with you some fun facts and observations I've learned over the dog years.

EVERGREEN!

It's been said that the Christmas tree tradition started because, during the winter months when plants lost all of their leaves, people took to decorating their homes with evergreen tree branches to remind themselves that warmth and greenery would return soon! And gosh, according to my super nose, it just smells so good!

REAL vs FAKE

Now, when it comes to decorations, it can all get pretty expensive - and when you factor in the temporary nature of it all, there's a big debate over real vs fake. In some homes, a real tree might be too much of a temptation for your four legged friends! It can be messy for multiple reasons, and costs about 6 month's worth of dog treats every time you buy one! On the contrary, after the initial investment, a fake tree will last for years to come, but their lack of decomposition can become a problem once you decide to throw it out and upgrade! In the end, humans are rarely rational during the holidays, so I say get what makes you happy because the pros and cons of real vs fake are pretty equal and I've seen this debate first paw.

The holidays are so personal, but that's also what makes them so great! So, get together, share the joy and celebrate your season however you like! Now, let's eat, drink and be merry!
I know I will!
