

# Mac's Monthly Advice!

*Hello summertime travelers! Mac here with a few travel tips for you to help keep identity thieves from ruining your next vacation!*

Make sure you only take necessary forms of ID and only the forms of payment you want to use with you when you depart. The less options crooks have to take advantage of you, the better.

Have all your devices secured with strong passwords so thieves can't just swipe their way to your financial info.

Don't use ATMs in tourist traps where scammers with skimmers can snag your info. Go to trusted banking institutions to withdraw funds when necessary.

Lock up your valuables in the hotel safe when you are out and about. It's called a safe because it helps keep your stuff safe.

*Enjoy your vacation!*
