

Mac's Monthly Advice!

Just a friendly reminder from Mac that it's almost time for you to get out and vote!

You are fulfilling one of your most important duties and one of your most precious rights as an American citizen when you cast your ballot. It's imperative that you make your voice heard by the people who govern your state AND your country. There are 3 ways you can make your vote count. You can visit your local polling place the day of the election. You can vote early. You can even send an absentee ballot if you aren't going to be able to vote on election day.

Above all, vote for who YOU personally think will best represent your interests and the interests of your fellow Floridians & Americans. Don't pay attention to polls or pundits. Research and make an informed decision when you punch that ballot. Your hope for the future of our government and our country depends on your willingness to make your voice heard on Election Day!
